School excursions have become increasingly popular over the past decades. Although there are those who claim these trips are quite problematic and useless, there are others who believe that they are worth the trouble for the benefit of the students.

Students from all over the world can benefit from those excursions in various ways. One advantage is that they can be quite educational and raise the awareness for important topics. For instance, while students might learn about deforestation in school, they would understand it much better if they experienced the problem first hand. This would make their behaviour more eco-friendly. Another advantage is that through school trips, teachers may develop many new ideas for future school projects because it is always good to get outside and away from the school for a while to think about new projects that could be started in the future.

Apart from the important advantages, taking school excursions can also mean spending time ineffectively. First of all, the price of these trips doesn't match the quality of the education one can receive. In other words, informal education can be found elsewhere as well, such as in language schools. Secondly, the concept of the term school trip is often misunderstood, which results in the fact that most students just play around and are not at all motivated to broaden their perspective and actually learn something.

All in all, although educational school trips are a great way for students to put skills they learn in the classroom into action, at the same time they can be a loss of time and their purpose misunderstood. I personally believe that we must continue to go on educational school trips because we become aware that we can learn from anywhere and everywhere, not just in school.

Nowdays school trips have become more popular than ever specially after the caranteen. Some people see them as something very important and as a part of education.

To begin with, they are an important part of youth. Students will remember them forever, for example on all reunions that will be organised in the future there will be some funny things that will be retold and never been forgotten. Furthermore school trips develop friendship among students. Above all, school trips have educational perpose which includes learning about history of some historic sites and visiting some places that they would never visit if they travel on their own, and they learn to behave responsable.

On the other side, there are also some disadvantages of school trips. Firstly it is the cost of trips which means you spend much time on something expensive and you could do something more important and affordable in that time. Then some of them see trips just as a way to party and drink alcohol as they feel free and without control of their parents. So they don't expiriance and learn with their teachers and classmates, but just loose time and sleep.

To sum it all up, school trips can have some advantages and disadvatages as everything in life. They develop friendship and things to remember and spread the cultural knowledge as well as learning responsibility. But also school trips can be too expensive and problematic for the time students spend without any results. In my opinion they still have to be organised but the destination has to be carefully chose, not too expensive and filled with many activities.

### **Izvršenje zadatka: 4 boda**

Uvod je nepotpun (nedostaje uvod u jedno od gledišta: 'School trips are a waste of time'). Gledišta su uglavnom dobro obrazložena i potkrijepljena (u drugom odlomku, od 3 argumenta jedan je bez potpore, a u trećem odlomku dva su argumenta razrađena).

### **Koherencija i kohezija: 4 boda**

Uglavnom je jasan tijek misli (ali je nejasna tematska rečenica na početku drugog odlomka). Odlomci su dobro strukturirani (ponegdje se nalazi argument bez potpore) i dobra je upotreba kohezivnih sredstava uz poneku pogrešku ('On the other side' i nedostatak zareza).

### **Vokabular: 4 boda**

Vrlo je dobar raspon vokabulara za izvršenje zadatka. Pojavljuju se pogreške u upotrebi/obliku/pravopisu, ali ne utječu na lako razumijevanje teksta.

### **Gramatika: 4 boda**

Dobar je raspon struktura. Pojavljuju se pogreške u upotrebi/obliku, ali ne utječu na lako razumijevanje teksta.

School trips these days are something that every student likes because they enjoy travelling. Some people say that school trips are a waste of time and should not be organised while others say different.

Firstly, school trips are not bad. Everyone loves to travel and have good time. You see lots of new stuff and meet new people. Also, you can use it to learn some language and expand your vocabular. My family also loves travelling and is going all around the world. This summer we will be going to Spain. But our school did not organize trip to Spain, and it is too bad.

On the other hand, some people say that school should not organise school trips. That is because they think young people will do nothing useful during the school trip and that they wouldn't learn anything useful. Some would say trips are expensive and some students will not go because of money. Maybe school should help these students so that they can also go.

In my opinion, schools must organise school trips because than students can socialize with one another and see new places and learn something new about culture and language of the country they are visiting.

#### **Izvršenje zadatka: 3 boda**

Uvodu nedostaje uvod u tezu, a zaključku sažetak argumentacije, stoga su oba nepotpuna. Ima primjera irelevantnosti u sadržaju eseja ('my family also loves...').

#### **Koherencija i kohezija: 3 boda**

Ponekad je nejasan tijek misli. Argumentacija je nepotpuna (u drugom paragrafu argument o obitelji koja ide na izlet, kao i u trećem paragrafu argument o skupoći izleta nisu relevantni za temu). Upotreba kohezivnih sredstava je zadovoljavajuća.

#### **Vokabular: 3 boda**

Dobar je raspon za izvršenje zadatka, postoje poneke greške u pisanju riječi.

#### **Gramatika: 3 boda**

Općenito se oslanja na jednostavne strukture.

School-trips are favourite between all students. Some go to sea, or to some country, but all like to be with friends and travel in some place. They meet other schools there and can have fun with them also. But there is a question here: Is it good or bad?

First, school trips are very good for students. They can see some interesting place and so much fun. Because of COVID we didn't have school trip and every body was being sad and sorry. Maybe we can go next year, I hope. There is a good plan to see some history places and maybe some culture places.

Next, school trips are expensive and some students not go. They have to pay for bus, hotel, food and they need some money for making fun in clubs. Maybe they need plan for earning money. For example they must work and earn money for trips. I and my two friends always saves money for trips and if we won't go with school we will go together to Pula and have fun. We went to Zadar last year and really we spend time on the beach all day and at night we went to clubs.

That is all about this topic of school trips.

#### **Izvršenje zadatka: 2 boda**

Jedna sadržajna odrednica (uvod) je nepotpuna, a druga (zaključak) nije razrađena. Gledišta su nedostavno obrazložena i potkrijepljena (uglavnom su argumenti nebitni za temu - na nekoliko mjesta u drugom i trećem odlomku opisuje financijski aspekt i daje osobne primjere, npr. 'Maybe we can go next year' ili 'Students must work ... and save money'.)

#### **Koherencija i kohezija: 2 boda**

Često je nejasan tijek misli. Ograničena je upotreba kohezivnih sredstava.

#### **Vokabular: 2 boda**

Pogreške u upotrebi/obliku/pravopisu ponekad uzrokuju teškoće u razumijevanju teksta. Dostatan je raspon za izvršenje zadatka, iako se često oslanja na ponavljanje.

#### **Gramatika: 2**

Some people say that school trips are wasteing time and shuld not be. Other say they shuld. So I will discus both sides of this problem in my esey. As in every esey are positive and negative sides to discus this.

School trips are a waste of time becose is cost money and better is to save money and go with friends later after school then with teachers. I like travel alone to places and do what intresting is to me, not what some agency organise. On trips students learn there something new sometime and sees interesting stuff, but some don't like that. School trips are good thing becose you learn and see lot of new place that you can see if you don't go on trips staying in school. In school you just study in books. The trips get organised good and they are usefull. You learn about other countrys, citys and people. And, some students not have money so they will not travel witout the trips with school and teachers. To end, I can say what I like travel and will maybe go in many countrys after I will finish collage. Is important to travell and learning things.

### **Izvršenje zadatka: 1 bod**

Tri sadržajne odrednice nisu razrađene: uvod, jedno gledište i zaključak. Nema općeg uvoda, a umjesto uvoda u tezu prepisana je zadana tema, dok jedno gledište ('School trips are a waste of time') nije razrađeno. Zaključak nema sažetak argumentacije i osobno mišljenje nije povezano s temom. Tekst koji je dobio jedan (1) bod za kriterij Izvršenje zadatka zbog tri nerazrađene sadržajne odrednice ne može dobiti više od jednoga (1) boda na svakome od ostalih kriterija.

### **Koherencija i kohezija: 1 bod**

Nedostatno je strukturiranje odlomaka (esej ima 2 odlomka) . Nedostatna je upotreba kohezivnih sredstava.

### **Vokabular: 1 bod**

Pogreške u upotrebi/obliku/pravopisu često onemogućuju razumijevanje teksta.

### **Gramatika: 1 bod**

Pogreške u upotrebi i obliku često onemogućuju razumijevanje teksta, a raspon je vrlo ograničen, nema točnih zavisno-složenih rečenica.
